

Annual 401(k) Review

Is your 401(k) set up correctly and on track to meet your retirement goals? Review your full year-end statement and website every year for the information below. Free review for 25 to 35 year children of clients, family and friends. Most plans start your 401(k) in a default mode. See the example below. Your 401(k) is typically your primary retirement saving vehicle, so it is very important it is set up correctly.

Contributions

Default or *Example

- Employee contribution rate & dollar amount 4% At least up to the match, max is \$18k or \$24k@50 plus match
- Employer match rate & dollar amount 4% 100% Vested or on a schedule
- Traditional pre-tax 401(k) contribution rate 4% Tax break now, lower tax rate in retirement. (Match goes here)
- Roth post-tax 401(k) contribution rate 0% Tax break later, higher tax rate in retirement.
- Verify your annual dollar contribution \$6,000 * Is the correct dollar amount going in? Are you close to the max?
- Auto contribution increase on/off Off On or turned off and reviewed manually each year.

Investments and Allocation

- Stock & bonds/cash allocation 85%/15% See the table below for your risk tolerance.
- Target Age Fund or Mutual fund portfolio 2040 100% Target Age Fund or diversified mix of funds.
- Current & new money allocation Same Is the new and current money % correct in each fund?
- Auto re-balance setting Off On or off if you enter a new portfolio each year or target fund.

Performance and Balance

- Account balance each year \$7,000 * Make sure your balance is rising at the correct rate each year.
- Annual rate of return to benchmark 6% * Compare to the appropriate benchmark below.
- Plan Annual Fees 0.2%* Plan annual fees typically 0.1% to 0.2% or \$20 to \$80.

Beneficiaries

- Primary beneficiaries Spouse 100% *
- Secondary beneficiaries Children 50%/50% *

Portfolio Asset Allocation & Risk Table

Fidelity Asset Manager Funds	40% FFANX	50% FASM X	60% FSANX	70% FASGX	85% FAMRX	100% PREIX

Annual Return (Past 5 / 10 years)	6.4% / x	7.2% / 4.9%	8.2% / x	9.0% / 5.0%	10.4% / 5.1%	14.4% / 6.7%
Best Year Return (Past 10 years)	26%	31%	33%	36%	39%	32%
Worst Year Return (Past 10 years)	-23%	-28%	-30%	-35%	-39%	-37%

The Risk Category, Risk Description and Time Horizon are defined by PDM Investment Services. The other numbers are from Morningstar ending December 2016. Beta is volatility relative to the S&P 500 of 1.0 and Standard Deviation is return variation from the mean. Past returns are used for comparison between risk categories only. Future returns may be significantly different and are not guaranteed in the future.

T. Rowe Price Retirement 2050	TRRMX (90%/10%)	(60% US, 30% INT, 10% Bond & Cash)	Aggressive Risk
T. Rowe Price Retirement 2040	TRRD X (85%/15%)	(57% US, 28% INT, 15% Bond & Cash)	Moderate-Aggressive Risk
T. Rowe Price Retirement 2035	TRRJX (80%/20%)	(55% US, 25% INT, 20% Bond & Cash)	Moderate-Aggressive Risk
T. Rowe Price Retirement 2030	TRRCX (75%/25%)	(50% US, 25% INT, 25% Bond & Cash)	Moderate Risk
T. Rowe Price Retirement 2025	TRRH X (70%/30%)	(45% US, 25% INT, 30% Bond & Cash)	Moderate Risk
T. Rowe Price Retirement 2020	TRRB X (60%/40%)	(40% US, 20% INT, 40% Bond & Cash)	Moderate-Conservative Risk
